

hw::device

```
graph BT; A[hw::core::device_default] --> B[hw::device]
```

The diagram illustrates a relationship between two classes. At the bottom is a gray rectangular box containing the text 'hw::core::device_default'. A blue arrow points vertically upwards from the center of this box to the bottom center of a white rectangular box above it. The white box contains the text 'hw::device'. This visualizes that 'hw::core::device_default' inherits from or is a specialization of 'hw::device'.
