

```
fmt::formatter< std  
::string >
```

A diagram illustrating the relationship between two C++ code snippets. A light gray box at the top contains the code `fmt::formatter< std::string >`. A dark gray box at the bottom contains the code `fmt::formatter< boost::basic_format< char > >`. A blue arrow points from the bottom box to the top box, indicating that the bottom code inherits from or specializes the top code.

```
fmt::formatter< boost  
::basic_format< char > >
```
