

Wallet::Subaddress

```
graph BT; A[Wallet::SubaddressImpl] --> B[Wallet::Subaddress];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a white box labeled 'Wallet::SubaddressImpl'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'Wallet::Subaddress'. This indicates that 'Wallet::SubaddressImpl' inherits from 'Wallet::Subaddress'.

Wallet::SubaddressImpl
