

```
fmt::formatter< std  
::underlying_type_t  
< T > >
```

A diagram illustrating the relationship between two C++ types. A light gray box at the top contains the type `fmt::formatter< std::underlying_type_t< T > >`. A dark gray box at the bottom contains the type `formattable::underlying_t_formatter< T >`. A blue arrow points from the bottom box to the top box, indicating that the bottom type inherits from or is a specialization of the top type.

```
formattable::underlying  
_t_formatter< T >
```
