

Wallet::Subaddress

```
graph BT; A[Wallet::SubaddressImpl] --> B[Wallet::Subaddress]
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray-shaded box labeled 'Wallet::SubaddressImpl'. A blue arrow points vertically upwards from the center of this box to the center of a white box labeled 'Wallet::Subaddress' positioned above it. Both boxes have a black border.

Wallet::SubaddressImpl
