

tools::wallet\_rpc::  
uri\_spec

```
graph BT; A["tools::wallet_rpc::  
MAKE_URI::request"] --> B["tools::wallet_rpc::  
uri_spec"]
```

A diagram showing a call from a function to a variable. At the bottom is a white box with a black border containing the text "tools::wallet\_rpc::MAKE\_URI::request". A blue arrow points upwards from the top of this box to the bottom of a gray box with a black border at the top. The gray box contains the text "tools::wallet\_rpc::uri\_spec".
